NEWS and COMMENT

When Coach "Indian" Shulte, acting referee, blows his whistle tomorrow afternoon on Rollins Field, the first real warfare in the Tiger air will commence, for then five teams of Bengals will be pitted against each other in actual battle the first scrimmage of the year. Daily battles will be fought until the weaklings and the incompetent are weeded out and only the strong and the brave remain. With the assistance of "Cap" Woody and others, Schulte will go on with his work in getting his warriors ready for the first battle October 7 with Central College. Many battles will be fought and many days of hard practice and scrimmage will take place until that famous Turkey Day when the Tigers go against their veteran foe from the River Kaw.

Coach Schulte's training this year will be somewhat changed in his scrimmage work. Temporary first, second, third, fourth and fifth teams will be named. Teams one and two will start the scrimmage, then number one will be withdrawn and team three will be pitted against number two. When number two has had enough, team four will take its place. And so on in a circle until all have had their share of the battle.

Chicago at New York.
Pittsburgh at Philadelphia.

New Eligibility Rules

Interpreted By M. U. Committee.

To be eligible for intercollegiate competition, a student must have made 27 hours credit for the past two semesters, 24 hours in law, according to the interpretation put upon the new conference rule at the meeting of the intercollegiate committee last night. This rule, providing for a sliding scale of credits in different departments to be obtained by the athletes, was passed at a meeting of the Missouri Valley Conference representatives in May, 1915, and went into effect on September 1 of this year.

This year's football team is the first to be affected by the ruling, and the members of the intercollegiate committee looked up the records of all candidates from the squad carefully at their last night's meeting. In only one case was there the slightest doubt as to eligibility and the records on this sophomore will have to be more carefully investigated.

"Ozark" Woody Can Now Exercise His Voice on the Scrubs.

C. R. Woody, who won his M in baseball and football and was captain of the 1916 Tiger nine, was appointed assistant in football. He has already been out on the field helping Schulte with the early practice.

Baxter B. Bond, a member of the football squad, who has been confined at the Parker Memorial Hospital with a wrenched knee, is able to attend his classes again.

CONDUCTS FEED EXPERIMENTS

College of Agriculture Finds Stunted Steers Can Be Made to Grow.

Highmark, a College of Agriculture Hereford steer that won a blue ribbon at the State Fair at Sedalia last year, was born on the same day as another well-bred Hereford.

Highmark was fed for maximum development. When two years old he weighed 1,610 pounds, and shortly afterwards won the prize. The other animal was fed the minimum amount of food required for life. He weighed 361 pounds when 2 years old.

The object of the experiment with the stunted animal was to find out what permanent effect stunting an animal would have on its subsequent development.

A stunted animal raised under conditions similar to those mentioned above was later fed a full ration and gained weight rapidly. The College of Agriculture has gone far enough with the experiment to find out that an animal does not lose its capacity to grow as a result of stunting.

This experiment has demonstrated that it is sometimes possible for a farmer to feed wheat straw and corn stover or silage to beef animals, even though these are not ideal materials to produce maximum of rapid growth.

Daily Market Report

By United Press.

EAST ST. LOUIS, Ill., Sept. 22.—CATTLE RECEIPTS—1,700, including 200 Texans. Market steady. Native beef steers \$7.50@11. Yearling steers and heifers \$8.50@10.65. Cows \$5.50@8. Stockers and feeders \$5.30@8. Calves \$6@11.75. Texas steers \$5.50@8.50. Cows and heifers \$4.50@8.

H. S. Kleinschmidt Visits Here.

H. S. Kleinschmidt, a graduate of the School of Engineering of the University in 1903 is visiting in Columbia for the first time since his graduation. He is now located in Salt Lake City. "Things have certainly changed, since I was here last," said Mr. Kleinschmidt. "We had real hazing then. However, I believe hazing should be controlled."

the hands that make them

HAND work commands respect in every field of endeavor—hand work is careful, painstaking, precise work—hand work is used more largely in our made to measure clothes than in any clothes you can buy.

Hand tailoring makes style permanent and enduring—it isn't nearly as fast nor as cheap as machine work, but it's so much better that there's really no comparison between the two.

The Continental Tailors of Chicago hand tailors our made to measure clothes.
